

LED COB 12V Flexible Strip Light (5m)	
--	---

Operation perimeter		Attention
Power	14W per meter	<ul style="list-style-type: none"> • Storage Temperature: -40°C to +80°C • Installation surface must be smooth, clean and dry • Any part of LED components must not be fixed on the surface of any sharp edge • Do not apply Pressure on the LED Strip during storage or when lighted up • Strip can be cut following the cutting line
Voltage	DC12V	
CCT	3000K	
Length	5m	
LED per meter	528	
Plate width	10mm	
Ingress protection	IP20	
Ops Temperature	-25°C to +60°C	
Certification -
